Allowed Claims: 35-62.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: none of the prior art either alone or in combination disclose or teach of the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103.

Specifically, with respect to independent claim 35, none of the prior art alone or in combination disclose or teach of a light-controlled light modulator comprising first optical branching means, optical branching-delaying means, first and second optical combiners/splitters and phase modulators as claimed, specifically wherein said optical branching-delaying means is connected to the second optical combiner and includes a third optical combiner connected to a plurality of optical branching-delaying circuits which are different in length, wherein when the wavelengths of the signal light equals the wavelength of the light to be converted, the wavelength conversion becomes possible without mixing noise into the wavelength converted light output.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
